**PETE PALANGIO ARENA – 6 Dressing Rooms to Reopen**

Since August 20, dressing rooms have been out of service due to mould. Since that time contractors have been undertaking extensive cleaning, and restoration measures. Dressing rooms will have new wall coverings, benches repaired or replaced, the entire lower level will be repainted. Air sampling has been ongoing since the beginning of this situation.

On Sunday October 17, 2010, after reviewing air sampling and test results, LEX Scientific gave the clearance for the use of dressing rooms 1 through 6. Effective immediately these rooms will be placed back into service. The focus from the beginning has been to get the first 6 rooms back in service as quickly as possible. The remaining dressing rooms are being reconstructed and are expected to be available by the end of October.

The City wishes to recognize and thank all our clients for their patience and cooperation.
